

## On-site eDiscovery Wherever You Need It

### Nebula Portable™

Nebula Portable provides powerful processing, filtering, and analysis in a package the size of a briefcase.

#### **Keep Security Paramount**

Conduct covert, full-scale investigative work with Nebula Portable without removing data from an organization or country. Highly sensitive data stays secure and no connection outside the company firewall is required. KLDISCOVERY has no access to the environment unless the client provides explicit, revocable access for remote support.

#### **Respond Rapidly to Requests for Information**

Nebula Portable is small enough to carry on commercial flights, allowing for quick and flexible deployment. Our on-site solution is backed by the expertise of KLDISCOVERY's forensic investigators, eDiscovery consultants and case managers who are familiar with local laws, languages and cultural considerations.

#### **Utilize Robust Capabilities**

Nebula Portable is designed to be a complete end-to-end eDiscovery platform in a single self-sufficient package. It includes a powerful, high-volume processing engine and a full-fledged ECA module. It supports multiple concurrent reviews and is packed with a host of other features to support the entire eDiscovery lifecycle.

#### **Comply with Data Protection Regulations**

By bringing the solution to the data, Nebula Portable facilitates compliance with the General Data Protection Regulation and other data protection laws, including data residency requirements and the fulfillment of subject access and deletion requests.

Nebula Portable was developed to help solve the many data privacy and logistical complexities associated with internal investigations, white-collar crimes, global fraud investigations, and cross-border litigation.

Nebula Portable™ is a self-sufficient and versatile tool  
that offers more control over your eDiscovery.

#### IMPRESSIVE PERFORMANCE

Powerful enough to accommodate processing, filtering  
and review on-site. Nebula Portable can host Terabytes  
of active case data for dozens of concurrent users.

#### PORTABLE & COMPACT

Our cutting-edge mobile technology enables  
Nebula Portable to be deployed anywhere in the world,  
including your office. Nebula Portable can be stowed  
within a Pelican™ case for convenient transportation.

#### GLOBAL CONSIDERATIONS

Our forensics experts ensure all data is collected  
and processed in a defensible manner according to  
country-specific protocols.

#### POWERED BY NEBULA®

A powerful combination of capability and simplicity,  
Nebula enables smarter ways to analyze, process,  
review, and manage large data sets.
