On-site eDiscovery Wherever You Need It

An elegant solution to a complex set of challenges.

Measuring roughly the size of a briefcase, NPC is a portable tool that allows powerful processing, filtering and analysis without the need to transfer data outside the company or across borders.

KEEP SECURITY PARAMOUNT

Conduct covert, full-scale investigative work with NPC without removing data from an organisation or country. Highly sensitive data stays secure and no connection outside the company firewall is required. Remote support requires manual authorisation before KLDiscovery has access to the environment.

RESPOND RAPIDLY TO REQUESTS FOR INFORMATION

NPC is small enough to carry on commercial flights, allowing for quick and flexible deployment. Our on-site solution is backed by the expertise of KLDiscovery's forensic investigators, eDiscovery consultants and case managers who are familiar with local laws, languages and cultural considerations.

UTILISE ROBUST CAPABILITIES

Designed to be a self-sufficient, full featured processing engine through review and productions, NPC supports multiple concurrent reviews as well as high-volume processing requirements. NPC offers a repository and matter-specific review platform where data can go to the repository for preservation/searching/ECA and also directly to a designated review database.

COMPLY WITH DATA PROTECTION REGULATIONS

Abide by the General Data Protection Regulation, EU-U.S. Privacy Shield and other data protection laws, including the fulfillment of subject access and 'right to erasure' requests.

NPC was developed to help solve the many data privacy and logistical complexities associated with internal investigations, white-collar crimes, global fraud investigations, and cross-border litigation.

NPC™

NPC is a self-sufficient and versatile tool that offers more control over your eDiscovery.

IMPRESSIVE PERFORMANCE

Powerful enough to accommodate processing, filtering and review on-site. NPC can host Terabytes of active case data for dozens of concurrent users.

PORTABLE & COMPACT

Our cutting-edge mobile technology enables NPC to be deployed anywhere in the world, including your office. NPC can be stowed within a Pelican™ case for convenient transportation.

GLOBAL CONSIDERATIONS

Our forensics experts ensure all data is collected and processed in a defensible manner according to country-specific protocols. NPC devices are even constructed on multiple continents to ensure compliance.

POWERED BY NEBULA

A powerful combination of capability and simplicity, Nebula brings a fresh perspective to established technology with improved flexibility and control. Enabling smarter ways to analyse, process, review, and manage large data sets.
